

OLE RØMER-OBSERVATORIET
ÅRHUS, DANMARK

June 16th 19 54.

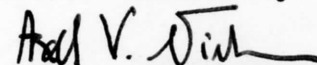

M. Henri Michel,
Bruxelles.

Dear Sir,

I beg to thank you for your kind letter of June 7th. I am very interested in old instruments and in the history of astronomy, and I should be very glad to get reprints of your papers.

As printed matter to day I posted a copy of one of my own publications. Before long I shall send you a copy of my book on the Danish astronomer Ole Roemer. Only a few copies are available and I beg your pardon if the copy is not a "fine" one.

Yours sincerely

Axel V. Nielsen.

Astronome de l'observatoire.
